

Leave Ransomware Concerns Behind

SaaS data protection with enterprise-grade security.

No one is immune from ransomware, but everyone must protect against it.

Ransomware attacks will occur every

11 seconds

this year¹

The average ransomware attack costs

\$4.44m²

The average ransomware incident takes

287 days

to recover³

THE GROWING DANGER OF RANSOMWARE

The costs of ransomware attacks against **966 entities in the government**, education and healthcare entities exceeded **\$7.5 billion**

Financial services firms are **300X more likely** to be targeted by cyberattacks⁴

Ransomware attacks against the retail industry **jumped 15%** in the first quarter of 2020⁵

The number of publicly recorded ransomware attacks against manufacturing companies **tripled in 2020** alone⁶

DON'T BE THE NEXT VICTIM

Cybercriminals view organizations in a state of change or with limited IT resources as easier targets

90%

Over **90%** of ransomware attacks are preventable⁷

46%

46% of SMBs have been victims of ransomware attacks⁸

28%

28% of SMBs do not have plans to mitigate ransomware attacks⁸

73%

73% of SMBs who experienced ransomware attacks paid a ransom⁸

PARTNER WITH METALLIC FOR DATA RECOVERY AND BUSINESS CONTINUITY

Metallic BaaS protects all your data from malicious threats. With Metallic you can:

Protect your environment with a robust, multi-layered security approach

Employ multi-factor authentication, advanced encryption, and zero-trust access controls

Spot ransomware and irregular file patterns with AI-powered anomaly detection

Preserve backup copies in isolated, air-gapped locations

Rapidly (and effectively) recover from attacks

verinext | metallic®
A Commvault Venture

Metallic also helps you:

- Adopt an edge-to-cloud security strategy across your data estate
- Mitigate risk of exposure and eliminate costly downtime
- Adopt a proactive recovery plan
- Stay future-ready against new and emerging cyberthreats

verinext

Verinext delivers transformative business technology, so customers are ready for everything that comes next. From intelligently automating time-consuming tasks and protecting data assets to securing infrastructure and improving customer experiences, Verinext activates the innovation that makes technology truly work so businesses can make their next move with confidence. Verinext is the new name for the combination of Anexinet, Veristor, Light Networks and SerenelT. With five offices across the south and northeast, Verinext is backed by Mill Point Capital LLC. Learn more at verinext.com.

Protect your most valuable assets and ensure business continuity with Metallic SaaS Backup.
