

LOWER YOUR TECHNOLOGY TCO AND ACCELERATE INNOVATION

Technology investments are among the largest expenses for any company, often consuming cash flow and limiting financial predictability.

Verinext Financial Services offers innovative financing solutions that lower your technology total cost of ownership (TCO) and enable you to put critical new equipment to work faster. By leveraging our financing resources, you can stretch your IT budget, meet your operational goals sooner, and improve your bottom line.

TECHNOLOGY FINANCING

Technology financing with Verinext ensures financial predictability, helping you make the most of your IT investments. Our flexible options allow you to refresh your environments more frequently, annualize discounts, and improve your technology ROI. Financing through Verinext also gives you greater leverage by eliminating manufacturer lock-in, enabling more agility and freedom when making critical technology decisions.

- ✓ **Financial Predictability:** Manage your cash flow with ease.
- ✓ **Lower TCO:** Annualize discounts and reduce long-term costs.
- ✓ **Improved ROI:** Get more value from your technology investments.
- ✓ **Increased Agility:** Avoid manufacturer lock-in for greater flexibility.

FLEXIBLE FINANCING TERMS

As an independent, full-service financial services provider, Verinext offers tailored financing options to suit your specific IT funding needs. Whether you're investing in hardware, software, or services, our expert team will structure a program to reduce your TCO while providing maximum flexibility and scalability.

- ✓ **Flexible Payment Options:** Choose payment terms that align with your budget.
- ✓ **Multi-Manufacturer Financing:** Finance a wide range of IT equipment and services from multiple providers.
- ✓ **Dedicated Finance Team:** Leverage decades of experience in technology financing.
